

8x8

Reliably reach customers
anywhere with just one
8x8 Chat Apps API.

Reach customers through
7 channels with just one
API. Fall back to SMS
backed by 130+ carriers in
190 countries.

8x8 Chat Apps API

8x8 Chat Apps API has a built-in orchestration system to send messages to 7 chat app channels based on user preferences. If all channels fail to deliver, it falls back to sending over SMS.

- **Reach customers** on their favorite messaging apps.
- **Track metrics** to see deliverability and engagement with messages and links.
- **Increase engagement through** the use of rich content that automatically adapts to various chat app channels.
- **Ensure deliverability through** read SMS fallback for times when a user is out of data coverage.
- **Reimagine customer engagement** through two-way conversations in multiple chat apps.

Out of the Box Integrations to Speed Up Development

Enable your Sales and Support teams to stay within your system of record while engaging across multiple chat apps. All of these interactions are logged in your system to ensure a single view of customer conversations.

8x8 Connect: Use our console to visually see all conversations

Simplify your customer service process by unifying every chat app conversation into a single interface.

Unify all conversations into a single source to provide seamless support.

See and edit customer information, access previous conversations, and more.

Update conversation statuses and resolve issues quickly by reviewing notes.

Chat Apps in action

- **Customer Support:** Provide your customers an additional avenue to reach you, with 2-way conversation support.
- **Reminders and notifications:** Ensure your customers are aware and ready for an impending delivery or status of an order.
- **Live updates:** Keep your customers and followers updated on the latest in your industry through timely messages, and drive traffic to your website through links.

How it Works

- Send messages using the API, use our out-of-the-box integrations to systems of record, or use 8x8 Connect Console.
- We process and deliver the messages based on the orchestration rules you set for preferred channels.
- We send you back customer replies
