## Flex Device-as-a-Service

Hardware without the capital expense

**The 8x8 Flex Hardware Program is the no-risk, low-cost way to purchase communications equipment for your business. Includes an industry leading 7-year warranty with cancel anytime, upgrade anytime flexibility.**

The cost of acquiring assets can be a huge burden on an organization, especially when starting off or opening new locations. The 8x8 Flex Hardware Program gives companies a flexible option to reduce their capital expenditures and get the equipment they need without a cash outlay.

### Never get stuck with old product.

Through the Flex Hardware Program, companies can get the most popular and latest Internet Protocol (IP) phones, and other essential conferencing equipment instead of purchasing them upfront. Hardware in the Flex program supports 8x8's entire platform of products. Easily use with 8x8 Work, 8x8 Meet, and 8x8 Contact Center.

Flex products are brand new and include basic lobby phones, receptionist, Power-over-Ethernet, Bluetooth, USB, Wi-Fi, and conference phones to accommodate your business needs. New models are continually being added.

### Our most comprehensive warranty ever.

With Flex, hardware is protected by an industry leading 7-year warranty that covers far more than standard warranties. Coverage includes:

- |               |            |               |
|---------------|------------|---------------|
| ■ Liquid      | ■ Fire     | ■ Vandalism   |
| ■ Food spill  | ■ Accident | ■ Water       |
| ■ Drops/falls | ■ Neglect  | ■ Power surge |
| ■ Disaster    | ■ Misuse   | ■ Lightning   |

To see the full terms and conditions visit [8x8.com/order-terms/flex-terms](https://8x8.com/order-terms/flex-terms).

### You're never locked in with Flex.

The 8x8 Flex Hardware Program puts users in charge, by not locking them into a long-term contract. Agreements are month-to-month and offer the ability to upgrade or change models as needed.

This means you'll always have access to the latest technology and never get stuck with an old device or extra asset on the books.

### Flex delivers an extensive and growing network of essential communication products.
